Save Community Jobs and Community Services

Federal economic stimulus funding passed by Congress last year created jobs in non-profit organizations to provide services to the community in the Jobs Now and City Fellows Community Jobs Program. That funding ends September 30, 2010, and so do those jobs.

The U.S. Senate will be debating in January whether to pass more job stimulus funding. Make your voices heard to your Senators. Continue the job stimulus funding! Include funding for "social infrastructure" – youth programs, tutoring, home care, child care, elder care and other community service jobs.

Monday, Jan. 18

10:30 a.m. – Rally
