Who are the SF Gray Panthers?

**We are:
Progressive, environmentalist,
anti-racist, anti-war**

We advocate and endorse positions and actions for peace and social justice, for universal healthcare, for human rights and civil liberties, for electoral reform, and against privatization of public resources.

We organize to save Social Security. We support a universal single payer healthcare system that covers everyone equally. We work to defend the Bill of Rights; to repeal the Patriot Act and to eliminate environmental racism.

We propose a human rights amendment to the California constitution, to encourage respect for and observance of the Universal Declaration of Human Rights.

We demand full rights for immigrants, whether documented or not! Stop racial profiling of Blacks, Latins, and Muslims. Stop deportations.

Stop the wars. They drain our resources and kill and maim men and women who join the military when they can't find jobs.

We demand HANDS OFF SOCIAL SECURITY! Scrap the payroll tax cap that lets the rich not pay their share. **No privatization!**

We agitate on every occasion for **universal, single payer healthcare:** equal, comprehensive, affordable care for all.

We demand No Cuts to Medicare and Medicaid, no caps on Medicare and Medicaid spending while health care profits drive up our medical costs.
