

Trump Versus America's Health

Trump and the Republican congress want to gut the Affordable Care Act, privatize Medicare, cut back on Medicaid, and privatize the Veteran's Administration.

Trump's attacks on us mean more costs for the 99% and more profits for the 1%.

Trump's dastardly plans also mean more people without healthcare.

Single Payer Now wants to expand healthcare to everyone by passing HR 676, the Expanded and Improved Medicare for All Act.

Join us for a panel discussion on how to move forward and defend what healthcare we have. The panel is composed of Single Payer Now activists who will report on the National Strategy Conference, which takes place January 14-16 in New York.

**Sat. 3pm, Feb. 4
518 Valencia in SF**

(At 16th St – 2 blocks from the 16th St BART)

Single Payer Now panelists include:

Barry Hermanson, Norma Myers, Murray Pender, Brian Stompe, and Don Bechler

Sponsored by **Single Payer Now**
