

Healthcare Justice for Working Families

How do we get there?

Your employer should not determine your ability to seek Healthcare. We must stop the perpetual cycle of increasing premiums, higher deductibles, larger co-pays with negligible raises. Where do you think your raise went? The insurance company got the raise you deserved!

- ⇒ We must get Healthcare off the bargaining table,
- ⇒ Prioritize wages, pensions, and working conditions,
- ⇒ We must eliminate the hourly threshold for health coverage.
- ⇒ Include all family members!

Join the SF Labor Council, Jobs with Justice and
the SF Chapter of the Campaign for a Healthy California
for a robust discussion on Healthcare Justice

Save the Date

Monday, September 24th, 6pm
Plumber's Hall
1621 Market Street, SF

The AFL-CIO will support legislation that guarantees health care as a human right through an improved Medicare for All, which we will judge according to our core values. We look forward to working with the sponsors of single-payer plans to ensure the needs and concerns of working people and their unions are met.
