

Save The People's Post Offices

No cuts to 6-day delivery, processing or retail PO services

- The Post Office is the 2nd **LARGEST EMPLOYER** in the U.S.
- Over 3700 P.O.s are in danger of sale or closure including many historic buildings. **Almost 220,000 workers face layoffs.**
- Many **threatened P.O.s are in rural and/or poor areas.**
- The Postal Accountability and Enhancement Act of 2006 let Congress manufacture a "budget crisis" and force USPS to pre-fund its future health care benefit payments to retirees for the next 75 years. **No other government or private corporation is required to do this.**
- **Congress wants to completely privatize USPS.**
- The giant real estate company CBRE advises the USPS on what post offices to sell and then profits as the listing agent. UC Regent Richard Blum, husband of CA Senator Dianne Feinstein, is chairman of CBRE.

What You Can DO

- Contact Congress & Demand to save and properly fund/staff all POs (Find your rep at <http://www.congress.org/>).
- **Sign Online Petition** at <http://www.savethepostoffice.com/>
- Write a letter or email to the Postal Regulatory Commission telling them why we need our post office.
